## PROFESSIONAL SUMMARY

Full Stack Developer passionate about creating functional, user-centered web solutions. I specialize in development with React and Node.js, building complete applications that combine performance, intuitive design, and scalability. Committed to continuous learning, code quality, and positive impact through technology. I seek to contribute to teams that value innovation, constant improvement, and personal development.

## SKILLS

**Languages and technologies:** ReactJS · NodeJS · Express · MongoDB · JavaScript · CSS3 · Git · GitHub

**Soft skills:** Time management · Critical thinking · Teamwork · Communication · Creativity · Continuous learning

**Languages:** Spanish (Native) · English (A2 - in progress)

## PROJECT EXPERIENCE

Book Platform | Full Stack Developer

ReactJS, CSS3, NodeJS, MongoDB

Web platform that allows users to manage their book collection using full CRUD and JWT authentication.

1. I developed the backend with NodeJS, Express, and MongoDB, implementing security with JWT and bcrypt.
2. I implemented the frontend in React with a responsive design and full API integration.
3. Project deployed on Vercel and connected to a MongoDB database in the cloud.

Explorify | Full Stack Developer

ReactJS, NodeJS, MongoDB, CSS3

Collaborative wiki-style application for sharing travel experiences. Users can create, edit, delete, and explore articles.

1. Designed the project architecture (frontend + backend).
2. Implemented authentication, badge system, and rich text editor.
3. Optimized user experience and deployment with Vercel.

## EDUCATION

Bachelor's Degree in Software Development Engineering

Cenfotec University, Costa Rica

2020 - 2024
